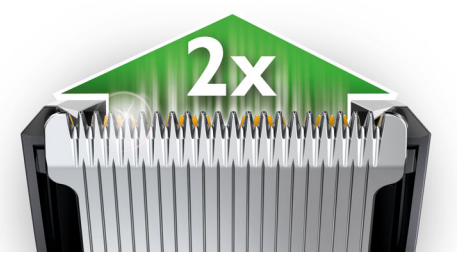
PHILIPS NORELCO

Hair clipper with DualCut Technology
Titanium Blades 24 length settings, 120mins cordless use/1h charge, Turbo boost

HC7452/41

Highlights

DualCut Technology



Power through any hair type with our advanced DualCut Technology, which combines a double-sharpened cutting element with low-friction engineering. The innovative cutting element is designed to perform time after time, cutting hair twice as fast as regular Philips clippers, with a robust stainless steel guard for ultimate durability.*

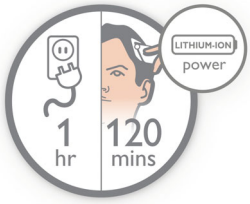
Titanium blades

The advanced Titanium blades are harder than steel for ultimate durability. In addition, the blades are self-sharpening to ensure long-lasting performance and accurate cutting, time after time.

One comb, 24 length settings

Designed for a hassle-free cutting experience and easier storage, one adjustable comb offers every length setting you will need. Simply adjust the comb to select and lock in the length you want, with 23 length settings from 1 to 23mm (3/64" to 7/8"), and precisely 1mm (3/64") between each length. Or you can use it without the comb for a close 0.5mm (1/32") trim.

Corded & powerful cordless use



Use the clipper corded or cordless for maximum power and freedom. The powerful Lithium-Ion battery provides up to 120 minutes of cordless power after only 1 hour of charging.

Turbo boost

The turbo power button boosts cutting speed for a perfect cut even on the thickest hair.

Washable Blades

Simply click open the detachable head to quickly release and wash the blades.

5-yr worldwide warranty offer

All of our grooming products are built to last. They come with a worldwide warranty and worldwide voltage compatibility. Simply register your clipper on www.philips.com/welcome to receive an additional 3 years on top of your standard 2-year Philips warranty, giving you a 5-year worldwide warranty in total.
